## INFORMATION SYSTEMS SECURITY PROGRAM MANAGEMENT / ISSPM TRAINING COURSE

### ISSPM TRAINING COURSE OVERVIEW

#### The ISSPM Training Course Objectives Are To:

- Teach Information Systems Security Managers and Officers (ISSM's / ISSO's) how to Successfully Development, Implement and Manage an Information Security / Information Systems Security Program for the U.S. Federal Government, The Department of Defense and Intelligence Community Agencies.
- Teach other individuals that are also involved in some aspects of ISSPM and will benefit from the ISSPM Training Course; Designated Approving Authorities (DAA's), Senior Agency Information Security Officer's (SAISO's) Chief Information Officer's (CIO's), Information Assurance Managers and Officers (IAM's / IAO's) and Network and Systems Administrator's/Engineer's.

#### The ISSPM Training Course Will:

- Educate individuals that have security responsibilities or management authority within the many facets of Information Security and Information Systems Security.
- Teach individuals the required Federal Government Laws and Regulations for ISSPM, and the Information Security / IT Security Essential Body of Knowledge (EBK). The TopSecretprotection.Com EBK was derived from the Department Of Homeland Security (DHS) EBK, Department of Defense (DOD) 8570.1 EBK, and the Committee on National Security Systems (CNSSI) 4014 EBK. Additionally the ISSPM Training Course has been closely modeled to match the Information Security / Information Systems Security Program Requirements of The U.S. Federal Government, The Department of Defense and Intelligence Community Agencies.
- Satisfy the requirements for Annual Security Education and Awareness Training.
- Enable you to be more successful in your responsibilities within ISSPM, thereby enabling your organization or agency to be compliant with Federal Government Laws and Regulations and Department of Defense and Intelligence Community Directives and Regulations were applicable.

- **Information Systems Auditing / Logging Monitoring And Reporting**
- **Incident Response And Reporting**
- **Microsoft Office / Adobe PDF Document Security Issues**
- **Threats And Vulnerabilities**
- **Electronic Computer Storage Media Sanitization-Destruction**

## **CLASSROOM BASED TRAINING / ON-LINE COMPUTER BASED TRAINING**

The ISSPM Training Course can be taught as a Classroom Based Training Course or as an On-Line Computer Based Training Course. One of the biggest advantages and most important benefits of taking the ISSPM Training Course On-Line through the TopSecretProtection.Com website is the savings to your organization. You will save your organization a substantial amount of money for travel. (Air Fare, Hotel, Rental Vehicle, Meals). Many of our students have enrolled in our ISSPM On-Line Training Course. You will receive solid, comprehensive, convenient, and affordable training without the travel, costs, and time constraints of traditional training and educational programs and courses.

Through a web browser you will have access to the ISSPM Training Course Modules as outlined above. Additionally the website contains a substantial amount of excellent training and reference material from the:

- **National Institute of Standards and Technology/NIST**
- **Department of Homeland Security/DHS**
- **Committee on National Security Systems/CNSS**
- **Director of National Intelligence/DNI**
- **National Security Agency/NSA**
- **Department of Defense/DOD**

- **Defense Security Services/DSS**
- **Defense Information Systems Agency/DISA**
- **Office of Management and Budget/OMB**
- **Presidential Executive Orders**
- **Carnegie Mellon University**

The ISSPM Training Course is well structured and comprehensive and is much more than just training. It is also an ISSPM Reference Tool. Each student will receive an ISSPM Training Course Handbook. This handbook covers all the ISSPM Training Course Modules. Also included in the handbook is a Security Controls Reference Section that is very useful for assessing the Management, Operation and Technical Security Controls of an Information Systems Security Program and Information Systems. The student will also have access to the TopSecretProtection.Com ISSPM Website Security Reference Section. The Security Reference Section of the website contains a wealth of information related to Information Security and Information Systems Security. This combination will provide our students with the required foundation and structure to ensure their Information Security / Information Systems Security Programs, are successful and fully compliant with Federal Government Regulations.

## **ISSPM CERTIFICATION**

At the end of each ISSPM Training Course Module, discussions are held to discuss the topics that were covered. Every student is closely monitored for absorption and understanding of the topics, and to measure the student's progress in the ISSPM Training Course. An ISSPM Certification is given to those students who successfully meet the objectives of the ISSPM Training Course.

## **JOB PLACEMENT**

### **We Provide Our Students With:**

- Free Job Placement Services
- Assistance With Resume Preparation
- Resume Posting On Our Website And Blog. We Notify Recruiters Of New Postings.
- Contact Information For Employers And Recruiters

## **PROFESSIONAL MENTORING PROGRAM**

At TopSecretProtection.Com we don't just collect for the cost of the ISSPM Training Course, train you, and turn you loose. We are there to mentor you for your entire ISSPM career. Our goal with each and every student is to establish a long term professional relationship and mentor these individuals through their professional careers in the field of ISSPM. Through mentoring, we can ensure that our students are continuing to develop the knowledge and skills required to succeed in the field of ISSPM. Our Mentoring Program is a voluntary program where our students can work together with the ISSPM Training Course Instructor/Mentor, to meet their developmental needs. Mentoring Partnerships are established on a one-to-one basis. The partnership is a constantly evolving, growing process with both members providing insights and feedback.

## **ISSPM COURSE PREREQUISITES**

The ISSPM Training Course is designed for individuals who have a good understanding and experience working with computers. This will better enable the individual to grasp the content of the information presented to them during the ISSPM Training Course. A background in computers is not required to enroll in the ISSPM Training Course. No specific formal college or other degree program is required for the ISSPM Training Course.

However, experience in Information Security or Information Systems Security, combined with a technical background in computers is beneficial. This technical background must be balanced with effective communications and interpersonal skills, because the ISSM/ISSO must associate with individuals at all levels of the organization, from Technical Personnel, Systems Engineers, to Senior Level Management and Directors.

### **ISSPM COURSE COST**

Please call for a quotation for the Classroom Based Training Course or The On-Line Web Based Training Course. We think you will be surprised at how much we have to offer at very affordable prices.

### **ISSPM CLASSROOM BASED TRAINING CLASSES / TRAINING LOCATIONS**

Currently the ISSPM Training Course is offered at our office in Columbia, Maryland. Please contact us for availability of classes, dates and times. Evening Classes are also offered.

### **ABOUT TOPSECRETPROTECTION.COM**

There is a difference between the TopSecretProtection.Com ISSPM Training Course and the competition. The difference is there is no competition that we are aware of.

- TopSecretProtection.Com is a leading provider of ISSPM Training for the Federal Government, Department of Defense and Intelligence Community Agencies.
- To successfully Development, Implement and Manage an Information Systems Security Program, you must understand the Core U.S. Federal Government Regulations. Our ISSPM Training Course will teach you these regulations. No other Certification Program will teach you the Core U.S. Federal Government Regulations.
- TopSecretProtection.Com was the first company to develop an On-line Web Based ISSPM Training Course. Our ISSPM Training Course stands to be the Enterprise Information Systems Security Program Training Course Reference Model for all Federal Government, Department Of Defense and Intelligence Communities Agencies to follow.
- The On-line Web Based Training Course and the Information Systems Security Reference Sections of the website are constantly updated with the latest Federal Government Regulations/Guidance, Training Course Material and Information Systems Security Reference Material. Past Students are notified of updates to the website via e-mails.
- Students that have completed our ISSPM Training Course constantly provide us with positive feedback on the Depth and Comprehensive Training that is provided in our ISSPM Training Course.
- In addition to the ISSPM Training Course Website, students have access to the TopSecretProtection.Com Web Blog. Here students can ask questions, share ideas, gain in-depth expert knowledge and post their resumes. The TopSecretProtection.Com Website and Blog are frequently visited by Job Recruiters seeking Trained and Qualified Information Systems Security Professionals.

### **ABOUT THE ISSPM TRAINING COURSE INSTRUCTOR**

- **The ISSPM Training Course Instructor is a Certified Information Systems Security Professional/CISSP.**
- **He is currently cleared at the TS/SCI Level (FullScope).**
- He has over 15 Years of Hands-On Experience in the Development, Implementation and Management of Enterprise Information Technology (IT) Departments and Information Systems Security Programs / Departments. He established his security credentials working for the Department of Defense, Intelligence Community Agencies, National Level Intelligence Centers, Federal Agencies and State Governments.
- He has held positions as a Designated Approving Authority Representative/DAA Rep., Computer Forensics Examiner, Senior Agency Information Security Officer/SAISO and Information Systems Security Manager / ISSM. He has protected Classified Information and Classified Information Systems up to the Top Secret / SCI Level.
- As the SAISO (April 2004 to April 2007) he was instrumental in establishing an Information Systems Security Program/Department from the ground up, for a high profile National Level Intelligence Information Sharing and Analysis Center, under the Defense Intelligence Agency/DIA. He is recognized in the DOD and Intelligence Community as a seasoned Senior Information Systems Security Manager. He has received several Meritorious Service Awards

### **BE PART OF AN ELITE TEAM PROTECTING THE US GOVERNMENT**

Do you want to part of an elite group of individuals that are responsible for protecting Classified and Sensitive Information Systems and Networks that play an important role in National Security of the US Government? Fighting the War on Terrorism and Cyber Crimes is of the utmost importance to the US Government. Adequate security of these Classified and Sensitive Information Systems and Networks is a mandatory requirement, not an option. As an Information Systems Security Program Manager/Officer (ISSM / ISSO) you will be responsible for ensuring that US Government computer systems and networks remain impenetrable from un-authorized access.

Pick up the phone and give us a call. We will be more than happy to discuss with you a career choice that can open up endless possibilities for career growth, advancement and salary potential. The demand for ISSM's and ISSO's is extremely high. Salaries for these positions with a Security Clearance can be as high as \$130K. (May Also Depend On Experience, Security Clearance Level, Geographic Region, Certifications)
